The fate of W. H. Horan
with rape, rests with the
evidence in the case. Yesterday
afternoon and the arguments of counsel
this morning. Judge W. H. Edwards
instructed the jury, which adjourned
about 12:30.

Arguments of counsel were
ally bitter and sarcastic. In his
speech to the jury, Judge Edwards,
assistant judge, who reviewed the evidence
from the witness stand, stated that
the defense had declared that the
trial would be a waste of time. The
prosecution, on the other hand, had
not been able to point out the
weakness which the defense had
attempted to question the
complaining witness, an excellent
witness for the prosecution. He
asked that the maximum punishment
be given to C. E. Dietz for the
defendant's through with his arguments.
The court adjourned last evening
and this morning the judge
stated that the crime of rape had
been committed; that the evidence
showed that force had been used;
that the complaining witness had
been injured and that therefore
she could not be found guilty
of the indictment.

The closing argument of the
state's attorney F. E. Thompson
made a plea for conviction on the
ground of the protection of the
peace of this community. He
stated that every material witness
in the indictment had been
produced and that the corroborating
evidence of the husband of the
complaining witness gave to the story
a strong basis for conviction.

Will Be Tried Again

According to information
received today, Horan will be
tried again Monday afternoon on
the same offense, two other cases
having been brought against him
regardless of the outcome of
this case. It is said that the state
will push the second case to the limit
in order to give the defendant a
long term in the penitentiary.
The complaining witness in the
first case is Miss Ruth Parker.
She is said to have been living
at Long View park, on the
corner of 16th and 17th streets.
